OASYS Project

THE ISSUE

Lack of preventive outreach to at-risk youths who are exposed to drugs in the community

ABOUT THE SERVICE

- An integrated system of care focusing on a holistic community-based service
- Consists of outreach and engagement, case management and treatment services
- Focuses on youth who struggle with drug-related issues

OUR CLIENTS

- Youth aged 11-21
- Exposed to or currently engaged in drug abuse
- Keen to seek help
- Youths who require extended help after prior drug abuse support and treatment

OUR GOALS

- Lead at-risk youths towards a purposeful and drug-free lifestyle through community outreach and psycho-education, treatment and recovery
- Create early prevention awareness among youths through our outreach platforms for drug abuse problems before they are deeply involved in it
- Help reduce recidivism rates
